DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 3-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. The preambles must claim the same apparatus; therefore the dependent claims must have the same preamble as the independent claim.

i. Claims 3 and 4 should not be claiming a floating head device in the preamble but it is supposed to modifying the floating head element of the angle clamp with Z axis attachment and quick button.

ii. Claim 5 should not be claiming the leveling pad in the preamble but it is supposed to modifying the leveling pads of the angle clamp with Z axis attachment and quick button.

iii. Claim 6 should not be claiming two rectangular side plates in the preamble but it is supposed to modifying the two rectangular side plates of the angle clamp with Z axis attachment and quick button.

iv. Claims 7 and 8 should recite the full preamble of the device and just part of it.

v. Claims 9- 10 should have proper antecedent basis by reciting "The" and should recite the proper preamble with is recited in the independent

claim 1.

Allowable Subject Matter

2. Claims 1-2 are allowed.

3. Claims 3-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kozima, Hyatt, and Oetlinger et al disclose a device.
